THE YOKOHAMA DOCK CO., LTD.

No. 1 DOCK.

Length inside 514 ft. Width of entrance, top 85 ft., bottom 75 ft. Water on blocks, 37.5 ft. Time to pump out, 4 hours.

No. 2 DOCK.

Length inside, 375 ft. Width of entrance, top 60.5 ft., bottom 45.8 ft. Water on blocks, 38.5 ft. Time to pump out, 2 hours.

THESE DOCKS are conveniently situated in Yokohama harbour and the attention of Captains and Engineers is respectfully called to the advantages offered for Docking and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work and a large stock of material is always at hand, (plates and angles all being tested by Lloyd's surveyors).

Two powerful Twin Screw Towboats are available for taking Vessels in or out of Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable of lifting 35 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that of any port in the world.

Telephone: Nos. 376, 506, or 681.

PAPER, or old ENVELOPES to be made into Books for the Children of the Poor Schools, who are taught by the Sisters.

Hongkong, 2nd April, 1909.

UNREST IN INDO-CHINA.

CONCILIATORY POLICY OF HOME GOVERNMENT.

STRONG MEASURES REQUIRED.

M. Klobukowski, the Governor-General of Indo-China, has entered upon a remarkable political course which has aroused serious misgivings among the colonists. Sedition and rank Nationalism were most pronounced last year in Tonkin and Annam, and manifested themselves in plotting and rebellion. The strong arm of the Government crushed the risings after much bloodshed, and many plotters suffered death or had heavy sentences passed upon them. After the Government had thus shown its strength, the Governor-General determined on a policy of conciliation and of letting bygones be bygones. Reforms were introduced, and trials of insurgents and plotters were stopped. The idea seems to be to pass a sponge over the past, and to gain over the natives by just government. In short some kind of amnesty has been declared.

GRAVEN FEAR OF HUMANITARIANS.

This glossing over of unpleasant political events seems to be prompted by the home Government which, above all things, wishes to avoid parliamentary bother by showing how smoothly things are going in the Colony. The strength of the desire for political quiet in Indo-China is best shown by the mismanagement of the brigand campaign in Tonkin. The Colonial authorities only launched a field force against the outlaws when the crimes of the latter passed beyond endurance. The troops entered the brigand country in force, and pushed the outlaws hard for three weeks, engagement following engagement in quick succession. Then came a pause. The home Government grew alarmed lest the opposition and the humanitarianism in Parliament should make capital out of the bloodshed, and call it to account for allowing Tonkin to be in a disturbed condition. Word was sent to the Colonial authorities to conduct the operations that there should be few killed and wounded; especially among the French section of the field force. Too heavy a butcher's bill would give rise to unpleasant questions in the Parliament. A cynic in a Tonkin newspaper calls this warfare in kid gloves.

RESULTS OF NEW DEPARTURE.

The Colonial Government listened and set native levies at work against the outlaws, since the end of February. These levies have no heart in the business and let down the brigands gently. Their orders are to surround the enemy, to starve them out, and compel them to surrender. These tactics have resulted in the surrender only of those outlaws who had joined the brigands out of fear. But the veteran outlaws who have too many crimes to answer for keep the field. The outlaws see the nets spread before them, keep continually on the move, and only fight when driven to bay. The home Government has no idea that the outlaws and De Nam, their leader, are enemies whom no promises can bind, nor threats terrify. They are armed with up-to-date rifles and fight in regular order behind entrenchments, from which only artillery fire can drive them out. Humane methods are utterly thrown away upon them. The military commanders dare not shoot brigand sympathisers and burn their houses, from fear of stirring up the humanitarian party in France. The brigands shoot and burn at pleasure. As matters now stand the natives dread and serve the outlaws while they laugh at the officials.—*Strait Times*.

BRITISH & GERMAN GUNS.

ARMAMENT OF THE RIVAL "DREADNOUGHTS."

From time to time come reports of enormous improved heavy guns for German warships, guns which are said to hopelessly outrange the finest British models. I am able, says the Berlin correspondent of *The Navy*, in the current issue of that journal, to correct some false impressions which exist in England with regard to German naval ordnance.

Impressively, neither Krupp nor the Imperial Marine Office have as yet seriously taken up the 15.5-inch calibre idea, and while the arsenal at Essen has already turned out some experimental 12-inch weapons for prospective mounting on German warships, there is authentic data to prove these somewhat inferior to the latest British model of corresponding calibre.

For the *Vanguard* and her immediate successors at least, it is quite certain that 11-inch gun will constitute the main battery. The 11-inch (28 centimetre) Krupp gun is a very fine weapon, particularly the 50-calibre type destined to arm the German *Dreadnoughts*.

Its weight is rather more than 49 tons; its armour-piercing projectile weighs 760 lb. With an initial velocity of 2,300 feet-per-second, the armour-piercing shell will penetrate 24 in. of the toughest armour (Krupp cemented) at 3,000 yards; 19 in. at 5,000 yards, and 8 in. at 10,000 yards. Two rounds can be got off with ease every minute with the latest loading and turret arrangements. It is thus plain that the potentiality of this splendid weapon is not to be despised. It is the latest word in German naval artillery, all exaggerated rumours to the contrary.

Turning to the contemporary weapon with which the British *Dreadnoughts* are armed, however, we find it to be superior in every respect—save that of fire rapidity—to the latest Krupp model. The weight is considerably over 60 tons, while the projectile weighs 850 lb., or 93 lb. more than the German. So far as I am aware, no exact figures regarding the muzzle velocity have yet been published, but it is well over 3,000 feet per second, and the armour-piercing projectile will penetrate 24 in. of Krupp cemented armour at 3,000 yards. A comparison of these figures with those given above for German will show that in most of the features which go to make the perfect naval heavy gun the British type is pre-eminent.—*Fall Mall Gazette*.

WEATHER FORECAST AND STORM WARNINGS ISSUED FROM THE HONGKONG OBSERVATORY.

METEOROLOGICAL SIGNALS.

Meteorological signals are hoisted on the mast in front of the Water Police Station at Tsim Sha Tsui for the information of masters of vessels leaving the port. They do not necessarily imply that bad weather is expected here:—

1. A CONE point upwards indicates a Typhoon to the North of the Colony.
2. A CONE point upwards and D.U.M. below indicates a Typhoon to the North-East of the Colony.
3. A DRUM indicates a Typhoon to the East of the Colony.
4. A CONE point downwards and DRUM below indicates a Typhoon to the South-East of the Colony.
5. A CONE point downwards indicates a Typhoon to the South of the Colony.
6. A CONE point downwards and BALL below indicates a Typhoon to the South-West of the Colony.
7. A BALL indicates a Typhoon to the West of the Colony.
8. A CONE point upwards and BALL below indicates a Typhoon to the North-West of the Colony.

Red Signals indicate that the centre is believed to be more than 300 miles away from the Colony.

Black Signal. Indicate that the centre is believed to be less than 300 miles away from the Colony.

The above signals will, as heretofore, be hoisted only when typhoons exist in such positions or are moving in such directions that information regarding them is considered to be of importance to the Colony or to shipping leaving the harbour.

These signals are repeated at the Harbour Office, H.M.S. *Tamar*, Green Island Signal Mast, and the Flagstaff on the premises of the Hongkong and Kowloon Wharf and Godown Company at Kowloon.

URGENT SIGNAL.

In addition to the above, when it is expected that the wind may increase to full typhoon force at any moment, the following Urgent Signal will be made at the Water Police Station, and repeated at the Harbour Office:—

THREE EXPLOSIVE BOMBS, AT INTERVALS OF TEN SECONDS.

A Black Cross will be hoisted at the same time, superior to the other shapes.

NIGHT SIGNALS.

The following Night Signals will be exhibited from the Flagstaff on the roof of the Water Police Station at Kowloon, the Harbour Office Flagstaff, and H.M.S. *Tamar*.

I. Three Lights Vertical, Green Green Green, indicates that a typhoon is believed to be situated more than 300 miles from the Colony.

II. Three Lights Vertical, Green Red Green, indicates that a typhoon is believed to be situated less than 300 miles from the Colony.

III. Three Lights Vertical, Red Green Red, indicates that the wind may be expected to increase to full typhoon force at any moment.

No. III. Signal will be accompanied by the Explosive Bombs, as above, in the event of the information conveyed by this signal being first published by night.

These Night Signals will be substituted the Day Signals at sunset, and will, when necessary, be altered during the night.

SUPPLEMENTARY WARNINGS.

For the benefit of Native Craft and passing Ocean Vessels, a Cone will be exhibited at each of the following stations during the time that any of the above Day Signals are hoisted in the Harbour.

Gap Rock.	Aberdeen.
Waglan.	Sap Ki Wan.
Stanley.	Sai Kung.
Cape Collinson.	Sha Tau Kok.
	Tai Po.

This will indicate that there is a depression somewhere in the China Sea, and that a Storm Warning is hoisted in the Harbour.

Further details can always be given to Ocean Vessels, on demand, by signal from the Light-houses.

F. G. FROO, Director.

HONGKONG, FRIDAY, JUNE 4, 1909.

ABOUT CHITS.

We have long yearned for the day when chits, that is hotel chits, would be abolished. We have seen reputable men brought to the brink of bankruptcy through the system of paying "on the nod," and we have commiserated those whose excellent sense has allowed all and sundry to initial their cognomies to slips of paper which were worth exactly the price on which they were written. In various places the chit system has been discontinued. Attempts have been made to the Straits Settlements, and in Shanghai to stop the practice. In the Straits the system proved a failure and much about the same can be said of Shanghai. Now Japan has entered the field of repressing one of the greatest evils that the Orient knows. More than anything else has the chit been the ruin and damnation of youths from home. Never having been accustomed to pay for their waste except in ready cash, and

seldom having the opportunity of signing their names in an authoritative way, the chit idea appeals to them as peculiarly attractive. When the chit is signed the bill is paid, until the end of the month. In Japan, the Oriental Hotel has issued an advertisement that no more bar chits will be accepted. As you know, when the placard appears in a hotel stating that no chits will be received that is tantamount to saying that anybody who is anybody can sign to his heart's content. The action of the Oriental Hotel in Kobe will be appreciated best by those who have encountered the discomfort of attempting to make ends meet at the end of a strenuous month. Doubtless, the chit system has its advantages, and until they get used to it, some persons may be inconvenienced by the new departure to be made by the Oriental Hotel in Japan, but it is doubtful if anyone conversant with the facts would deny that the evils arising out of the system seriously counterbalance any merits it may possess. On the one hand, hotels and other establishments where the signing of chits is permitted are frequently put to great trouble and loss in collecting the amounts due, more particularly in bad times such as those through which we are now passing. On the other hand, it is a truism to say that the fatal ease of putting one's name to a chit presents a great temptation to many persons, especially those new to the Far East, to spend more money than they can safely afford. Many a man of limited means, who has no desire to live extravagantly, finds when his month's chits are presented that he has unwittingly crippled his resources to a very unpleasant extent. To the chit in fact, not a few cases of financial embarrassment—and some tragedies—could readily be traced. All this is old news to most of our readers, not to say platitudinous, but even platitudes have their uses, and in the case of the "chit" system the abuses to which it is subject can hardly be insisted upon too often. We understand, says the *Kobe Herald*, that other well-known hotels here have under consideration a step similar to that now announced by the Oriental, and if, as it is to be hoped will be the case, they decide to take the same course, a great deal will have been done toward rectifying the evils for which the "chit" system is responsible. At first, no doubt, the establishments which act in this way may experience some falling off in their receipts, but if the principal hotels combine to take joint action, there should be little permanent loss in this respect, while a great advantage would be obtained by the avoidance of bad debts and the need for the troublesome work of collecting. After all, a hotel bar business is essentially one that should be on a cash basis. It is, so, almost in every case, at home, and there is no valid reason why the same system should not prevail in Japan. The Oriental, we think, to be congratulated on adopting this wise and public-spirited policy, and there is good reason to believe that it will not long be allowed to stand alone in taking a course which is as much in the true interests of the hotels as it is for the welfare of their customers.

LOCAL AND GENERAL.

THE German mail of the 5th May was delivered in London on the 2nd inst.
PROFESSOR TAKANO Iwasaburo, of the College of Law in the Tokyo Imperial University, has been appointed to visit Europe and America on official business. Messrs. Katano Jitsunosuke, and Yamamoto Miyeno, Instructors in the Yamaguchi Higher Commercial School, have been appointed to visit China.
IT was expected that Sir Francis Piggott (Chief Justice) would have delivered his decision today in the case in which Captain C. W. Mitchell, master of the steamer *Fook Sang*, is suing John Lemm, the architect, for damages for alleged misconduct with his wife. His Lordship had not sufficient time to consider the various points submitted, but he intimated this morning that his judgment would be handed down some time next week.

WE have received from the office of the Nippon Yusen Kaisha particulars of special summer excursions to Japan ports and back, which will be open to the public from the 1st inst. to the 31st August. The circular contains a schedule of the Company's various vessels and gives a list of special reduced tickets which will hold good for the specified period. Special facilities in the way of overland travelling are to be provided.

A HANKOW dispatch of 29th May says:—M. La Verriere, Chancellor of the French Consulate at Hankow, fell overboard from the C. M. S. *Kuling* and was drowned. M. La Verriere was born in 1886, and was, therefore, in his twenty-third year. He went direct to Peking as student interpreter from the Oriental School, Paris. He remained in Peking for two years, and was sent to Hankow in 1907 as Chancellor. About two months ago he was appointed Acting Vice-Consul, a post that he was holding at the time of his death.

IT is reported from Formosa that the Oriental Sugar Company has now almost concluded its production of sugar this season. The total output is estimated at 130,000 bags. The Formosan mill of the Dai Nippon Sugar Refining Company, which has had an overflowing supply of cane, is expected to finish its operations in a few days. Its output also is estimated at 130,000 bags. Messrs Masuda and Abe, of Yokohama, and the Suzuki Shoten, of Kobe, are reported to be competing in the establishment of sugar mills in Formosa.

Kapsing Island Light.

BETTER LIGHTING OF APPROACH
TO HONGKONG HARBOUR.

OFFICIAL CORRESPONDENCE.

The following correspondence was discussed at the meeting, on 17th May, 1909, of the General Committee of the Hongkong Chamber of Commerce:—

Colonial Secretary's Office,
Hongkong, 29th March, 1909.

Sir,—I am directed to acknowledge the receipt of your letter of the 18th instant in which you state that, in the opinion of the committee of the Chamber of Commerce the institution of a light on the southern end of Kapsing Island is urgently required as a leading light across the Harbour to the Caputina.

In this connection I am to inform you that the placing of a beacon on the Bunsanish Rock has been under the consideration of the Government and it is suggested that if a light were placed on such a beacon the purpose of furnishing a leading light for the Caputina would be better served than by placing a light in the position your Committee suggest: while at the same time what is a serious danger to navigation would be marked.

I am to add that the Government will be glad to learn the opinion of the Committee of the Chamber of Commerce on the above suggestion.—I am, &c.,
(Sgd.), A. G. M. FLETCHER,
for Colonial Secretary.The Secretary,
The Chamber of Commerce.

The following acknowledgment was sent to the Government:—

Chamber of Commerce,
Hongkong, 31st March, 1909.

Sir,—I have the honour to acknowledge the receipt of your letter of the 29th March, 1909, (No. 8824/1909) in reply to mine of the 18th instant on the subject of the institution of a light on the Southern end of Kapsing Island and asking the Chamber for an expression of opinion as to the suggestion of placing a beacon on the Bunsanish Rock.

The above matter is now receiving my Committee's attention.—I have &c.,
(Sgd.), E. A. M. WILLIAMS,
Secretary.Hon. Mr. F. H. MAY, C.M.G.,
Colonial Secretary.

The following memorandum prepared by Capt. Lloyd was received:—

Re Light on Kapsing Island.

The proposal of the Government to place a light on the Bunsanish Rock, as a guide through the Kap Shui Moon, and the opinion that it would furnish more protection to navigation than a light on the lower end of Kapsing Island is not likely to find endorsement amongst those who are practically affected by it.

While agreeing to the abstract that a light on Bunsanish Rock would be a good thing, and welcomed as pointing out the position of a danger, it nevertheless finds no favour as a bad weather guide through the Pass; and I do not think there is any keen desire for such, certainly not as a substitute for the one applied for. As a danger light it exists, but I cannot call to mind any accident of late connected with it; the name "Bunsanish" is presumably derived from some "Country-Wallah" in the old sailing ship, days striking it.

It seems difficult to explain the reason for going so far afield for the solution of the problem it lies so near at hand.

Accurate and fine draught bearings are of little account in our navigation, with varying courses, deviations for junks, &c., there is no time for taking or using such, keen eye-sight and good judgment are the essentials of our plotting, and the actual visual fixing of the objective is what is wanted, and not the laying down of a course which cannot be adhered to.

I may point out that the rock is not an obstacle in any special fairway, and a straight course from the buoys to the Pass (marked by the light) leads a long way clear of it.

It would also seem that financial considerations would favour the island light, as finding a foundation on a submerged rock is an expensive piece of work.

The common sense view of the matter would seem to be, that the matured opinion of the men who have had many years' experience and practice on the route, and who have discussed the subject and weighed the claims of this or the other alternative should be the determining factor in the decision as to the site of the light.

(Sgd.), CHAS. V. LLOYD,
Master, s.s. *Fatshan*.

Hongkong, 7th April, 1909.

The sketch made by Capt. Lloyd was laid on the table.

The following letter was received from Capt. R. D. Thomas, Master of the s.s. *Hungshan*:—S.S. *Hungshan*,
Canton, 16th April, 1909.

Dear Sir,—I beg to acknowledge the receipt of your letter of the 5th instant enclosing a copy of the reply sent by the Government to the Chamber of Commerce with reference to establishing lights on Kapsing Island and Toong Ku. With regard to the Government proposal to place a light on the Bunsanish Rock as a guide across the harbour to the Kap Shui Moon, and the opinion that it would furnish more protection than a light on Kapsing Island does not recommend itself to those most affected by it. Whilst agreeing that a light or beacon on the Bunsanish Rock would be useful as pointing out the exact position of a danger, it finds no favour as a guide to the Pass during bad weather, as anyone keeping away to pick up such light or beacon on a dark or foggy day or night would be unnecessarily running his ship into danger and after picking it up would still be a mile or more away from the Pass with a nasty ledge of rocks running out from Lantau Island almost in his course on which more than one vessel has struck during my time on the river. On

the other hand, it is absolutely necessary to pick up Kapsing Island to insure setting a correct course through the Pass. At the present time when there is a thin fog or heavy rain and one is unable to clearly distinguish the contour of the land, the Southern fore-shore of Kapsing Island and the Eastern fore-shore of Lantau Island in the neighbourhood of the Pass are so much alike that it is almost impossible to distinguish one from the other, especially so if the course across the harbour has been altered several times to clear junks when both time and position are somewhat vague.

Now with a small white house (in which to keep the light) built on the Southern fore-shore of Kapsing Island this difficulty would disappear, as the one shore would then have a distinctive mark and the erection of the light would then be quite as useful during the day as it would be at night.—I remain, &c.,
(Sgd.), R. D. THOMAS,
Master, s.s. *Hungshan*.E. A. M. WILLIAMS, Esq.,
Secretary,
Hongkong General Chamber of Commerce.

I endorse all Capt. Thomas' remarks re light on Kapsing Island. After many years' experience as a pilot to Canton I have no hesitation in saying that the only safe guide through Kapsing Mun Pass is a light on Kapsing Island. A light on Bunsanish Rock intended as a guide through the Pass would only increase the existing danger.

(Sgd.), T. H. CHRISTIE.

The following reply was sent to the Government:—

Hongkong Chamber of Commerce,
27th April, 1909.

Sir,—I have the honour to acknowledge the receipt of your letter of the 29th March, 1909, (No. 8824/1909) in reply to mine of the 18th instant having reference to the institution of a light on the Southern end of Kapsing Island.

My Committee having consulted the principal Companies interested with regard to the counter-proposition of the Government that a light on Bunsanish Rock would better serve the purpose of furnishing a leading light for the Caputina, the opinion of the representative shipping Companies is now set forth in a memorandum dated 9th April, 1909, prepared by Capt. Lloyd, Master of the s.s. *Fatshan*, which I now beg to enclose.Capt. Lloyd's opinion is supported by a letter dated 16th April, 1909, from Capt. Thomas, Master of the s.s. *Hungshan*, the first of the signatories to the letter previously forwarded to the Government by the Chamber.

Capt. Thomas' letter is endorsed by Mr. T. H. Christie, a pilot of many years' experience. A copy of this letter and endorsement is also enclosed.

My Committee feel that the opinions expressed by so representative a selection of experienced navigators are entitled to the fullest consideration and would ask therefore that the Government be good enough to reconsider the question.

I should be glad if Capt. Lloyd's memorandum may be returned.—I have &c.,
(Sgd.), E. A. M. WILLIAMS,
Secretary.Hon. Mr. F. H. MAY, C.M.G.,
Colonial Secretary.Colonial Secretary's Office,
2nd May, 1909.

Sir,—With reference to your letter of the 27th ultimo I am directed to inquire what description of light the Chamber recommends should be placed on the Southern end of Kapsing Island and in this connection I enclose a copy of a minute by the Harbour Master dated the 26th ultimo.

I return herewith Capt. Lloyd's memorandum.—I am, &c.,
(Sgd.), F. H. MAY,
Colonial Secretary.The Secretary,
Chamber of Commerce.

Hon. Colonial Secretary.—Mr. Lloyd certainly makes a very good point in the fact that courses cannot be relied upon because of the frequent necessity of getting out of the way of junks. But the principal point upon which he lays stress is the similarity of the appearance of Kapsing Island and of Lantau Island and he seems to be more anxious for some distinguishing mark, such as a light, than for a light, which, as I have pointed out, would not be visible in thick weather. Such a distinguishing mark could easily and economically be made with a few rocks locally obtained and a bucket of whitewash.

(2) But if it is decided that a light is to be erected there, it would be well if the Chamber of Commerce were to say what description of light they advocate. The existing light on Mawan Island cost £51.62, including freight and insurance; but not including Public Works Department expenses for installation. If such a light were advocated, it would, in addition, involve the expense of salary of light-keepers and of course, oil, etc. An automatic (unattended) acetylene light, such as is extensively used in Canada with great success, would be of much greater power and would cost about £750, but the cost of salaries would be avoided. This price would include an automatic oil-cutting apparatus which would make the light a simple and less costly affair.

(Sgd.), BASIL TAYLOR.

28.4.09.
Memorandum by Capt. Lloyd on the preceding minute of the Harbour Master.

Re-light on Kapsing Island.

The light asked for on Kapsing Island is intended as a local lead and a powerful light is not necessary, as long as it is plainly visible in dark weather some 4 or 5 miles off, say, from the neighbouring point of Chungkue it would suffice. A white light would probably best meet requirements on account of its superior penetrating power in thick weather, and if it could be made distinctive it would be better, as there are generally many and various lights thereabouts.

On the score of finance, could not some automatic contrivance such as the Gas Fairway Buoys (although it should be in some more

reliable form, as the gas buoys show at times only a pin-point of light) are equipped with a correct course through the Pass. At the present time when there is a thin fog or heavy rain and one is unable to clearly distinguish the contour of the land, the Southern fore-shore of Kapsing Island and the Eastern fore-shore of Lantau Island in the neighbourhood of the Pass are so much alike that it is almost impossible to distinguish one from the other, especially so if the course across the harbour has been altered several times to clear junks when both time and position are somewhat vague.

I have before mentioned the advantage of a prominent structure at that place as a distinguishing mark or guide in a fog. As the proverb says:—"All cats are grey in the dark," so in a shifting fog all rocks and trees lose their identity and are not recognizable, seen for a second or two and then covered up again it is impossible to locate them with certainty, but a structure of lines and angles, seen if only for a moment, differing altogether from surrounding objects, speaks for itself, and I would suggest, if not a house, some form of beacon, other cone-shaped, shaped, with a pole and basket on top, rather high up as fogs drift around in bunches and layers, and what may be visible at one level may not be so lower down or higher up. Such a structure should be distinctively coloured. Striped black and red are, I think, the best seen colours in a fog.

(Sgd.), CHAS. V. LLOYD,
Master, *Fatshan*.

Hongkong, May 6th, 1909.

The following letter from Capt. Clarke has been received to-day:—

Hongkong, 4th May, 1909.

Proposed Light Kapsing Island.

Sir,—In reply to your inquiries, the general opinion of our Commanders is that the most suitable situation for the light would be on the Southern end of Kapsing Island at an elevation of 30 feet above High Water.

Light.—Bright, occulting, of Sixth order, visible for five miles on a clear night.

Structure.—Similar to Ma-wan Island light-house. This would be considered a good distinctive mark in a fog during day time.

Fog-signal.—Bell, worked automatically as in use on the Iron Barrier near Whampoa. In fog or thick rain sound would be a safer warning than the off-chance of seeing the structure of the light tower. I recommend this suggestion to the consideration of your Committee.—I am, &c.,
(Sgd.), W. E. CLARKE,
Secretary.E. A. M. WILLIAMS, Esq.,
Secretary, Chamber of Commerce.

It was decided to forward to the Government a copy of the letter received from Capt. W. E. Clarke containing the views of the Commanders of vessels of that Company. The Committee endorsing the views therein expressed.

CANTON DAY BY DAY.

OUTRAGE BY ROBBERS.

[From Our Own Correspondent.]

Canton, 3rd June.

At about 9 p.m. on the 28th ultimo a gang of about two hundred robbers, under the leadership of the robber chief Ng Pui, attacked the village of Wong Ma Chung in Shun Tak district, where they ransacked thirty-four houses in all and carried away a large quantity of booty to the value of about \$1000. The local militia station was destroyed by the desperadoes, two soldiers being killed, while three others fell victims during the engagement between the brigands and the police. In addition to the booty, the brigands kidnapped seventeen persons, whose whereabouts are not known at present. The victims of the outrage have now reported the case to the Canton officials.

A CHEMIST'S SORROW.

On the 29th ultimo, another robbery was committed shortly after 8 p.m. in a village called Leung To, in Namhoi, where a chemist's establishment was entered and ransacked by about forty robbers. All the valuable articles they could lay their hands on were taken away and in addition to this, the master of the shop was kidnapped. The method employed by the robbers to enter the premises was to pass off under the guise of soldiers.

GAMBLING MONOPOLY RESUMED.

The Board of Re-organisation has now granted Mr. Yik Kai Hong permission to continue the gambling monopoly of "Pu Piu" and "Shan Piu" lotteries in the whole of Kwangtung province for a further period of six years at an annual rental of \$3,000,000, plus a royalty of 600,000 taels to the Canton Arsenal, and \$200,000 to the Canton Government Cement Works.

CNRST IN KWANGTUNG.

On the 30th ultimo, the Canton Brigadier General Wu proceeded to Wei-chow with a detachment of troops on board the gunboats *Pao Hung* and *Hoi Yin* with the view of keeping a look-out on the movements of the revolutionists, who are alleged to be making attempts to come over to Kwangtung from Hunan to the number of two or three thousand. Advice to the same effect has reached Canton, and the authorities have given instructions to all military officials to take precautions against the perpetration of any outrage. In reference to yesterday's report that the Viceroy has wired urging Admiral Li Chun to return as quickly as possible from the Paracel Islands, it is now learnt that the Viceroy's doing so is to obtain Admiral Li Chun's services in case they are urgently required in anticipation of any disturbances that may possibly arise.

THE SUNNING RAILWAY.

The amount of the daily collection in fares and freight by the Sunning Railway during the 3rd moon is as follows:—

1st day \$64.94; 2nd day \$92.54; 3rd day \$62.18; 4th day \$78.98; 5th day \$67.35; 6th day \$70.12; 7th day \$91.62; 8th day \$69.45; 9th day \$77.07; 10th day \$63.50; 11th day \$68.74; 12th day \$73.05; 13th day \$53.57; 14th day \$70.50; 15th day \$81.31; 16th day \$79.19; 17th day \$72.07; 18th day \$66.80; 19th day \$48.15; 20th day \$69.69; 21st day \$82.50; 22nd day \$73.72; 23rd day \$68.80; 24th day \$70.76; 25th day \$69.19; 26th day \$65.83; 27th day \$78.11; 28th day \$75.05; 29th day \$64.04.
The total amount realised in that month was \$20,664.54.

GOVERNMENT NOTE ISSUE.

A TENTATIVE PROPOSAL.

At the monthly meeting of the General Committee of the Hongkong Chamber of Commerce, held on the 17th ult., the following letter from Government was considered:—

Colonial Secretary's Office,
18th April, 1909.

Sir,—I am directed to inform you that H. E. the Governor has at the present time under consideration the question of the introduction in this Colony of a Government Note Issue on the lines of the system already adopted in the Straits Settlements, and I am to inquire what are the views of your Chamber on the subject.

2. This matter was last under consideration in 1899 when the Government decided to await the result of the experiment in the Straits Settlements, which appears to have been attended by a certain measure of success.—I am, &c.,
(Sgd.), F. H. MAY, //
Colonial Secretary.The Chairman,
Hongkong General Chamber of Commerce.Hongkong Chamber of Commerce,
21st April, 1909.Sir,—I have the honour to acknowledge the receipt of your letter of 15th April, 1909, (No. 864/1909) stating that His Excellency the Governor has under consideration the question of the introduction into this Colony of a Government Note Issue on the lines of the system already adopted in the Straits Settlements, and to state that this matter is receiving my Committee's attention.—I have &c.,
(Sgd.), E. A. M. WILLIAMS,
Secretary.Hon. Mr. F. H. MAY, C.M.G.,
Colonial Secretary.

It was decided to ask the Government for fuller details of the scheme, the following being among the more important points upon which the Committee wished to be informed:—

1. The general lines which it is proposed to adopt.

2. The arrangements for exchanging dollars into notes and vice versa.

(a) Whether the Government will have their own treasuries and staff for working the issue.

(b) If not, what alternative system have they in view.

3. To what extent do the Government estimate the revenue of the Colony would benefit as against the present tax on Bank notes and the data on which such estimate is based.

JUNK MASTER'S WORRIES.

QUESTION OF PRIORITY RAISED.

This morning, in the Court of Summary Jurisdiction, Mr. Justice Cornwell presiding, further argument was continued in the case in which a trader named 'So' Lun, of 41, Mald Road, Shau-ki-wan, is proceeding against Ho Cheung, the master of the *Sang Cheung Yung Kee* junk, to recover the sum of \$251.65, balance of an amount alleged to have been deposited with the defendant for a certain purpose. There were two other claims against the junk master. One was by Li Fa, a fisherman, also of Mald Road, Shau-ki-wan, who sued for \$100, and the other by Cheung Kam Tai for \$870.65, alleged to have been for salt fish sold and delivered.

When the case was called Mr. John Hastings referred to the case in which a number of judgments had been entered against the owner of a certain junk.

His Honour inquired whether the debt had been paid off.

Mr. Hastings said it was not so.

Mr. Otto Kong Sing—I believe that was the position. I have no objection to Mr. Hastings having priority.

Mr. F. P. Hett thought there was no doubt that Mr. Hastings was entitled to priority. Unfortunately his Honour had made an order that he came in *pari passu* with the others. He thought that if the Court inspected the endorsement on the writ it would be seen that it was so.

His Honour—As a matter of fact there is an endorsement, but it is really not my endorsement.

Mr. Hett—I have no objection to Mr. Hastings' claim, but Mr. Kong Sing has duplicated. His action did not preserve the property. Under the circumstances I do not think he should have priority.

Mr. Hastings observed that there was plenty of money to pay off all the costs.

His Honour—What is your claim?

Mr. Kong Sing—\$350.

His Honour—And costs?

Mr. Kong Sing—\$400.

Mr. Hett said that there was a likelihood of him not getting his costs if Mr. Kong Sing had priority.

His Honour—If Mr. Kong Sing had not attached the junk, Mr. Hastings might have been paid off, and the junk would have sailed away.

Mr. Hett objected to Mr. Kong Sing obtaining priority as to his costs.

His Honour said he would like to consider the point. He thought there was something in the Law Reports regarding the matter, and referred his decision.

THE death occurred at Nagasaki on the 23rd ultimo of Engine Room Artificer Wade, of H.M.S. *Ring Alred*, who succumbed at the early age of 40. The unfortunate man delayed to report himself sick, and contracted the disease a considerable time before going to the ship's sick bay; consequently, when taken into the Naminohira hospital, he was beyond hope and, after a few days' suffering he passed away as stated. The *Nagasaki Press* states that the funeral took place at Unkami cemetery with full naval honours. The ceremony was witnessed by a large gathering of Japanese and foreigners.

Telegrams.

"HONGKONG TELEGRAPH" SERVICE.

THE SUNNING RAILWAY.

OPENING CEREMONY.

[By courtesy of the "Sheung Po".]

Sunning, 3rd June.

The inaugural ceremony of the Ning-yung Railway took place to-day.

Among those present were the Viceroy's representative, Taotai Hung Hing Fai, Taotai Chan Mong Tsang (of the Bureau for the Development of Native Industries), and the British Consul-General at Canton.

There were altogether several hundred people present.

To add to the brilliancy of the ceremony the harbour presented a very gay appearance, with the fleet of eleven steam-launches, some twenty flower boats for the accommodation of the guests, and one gunboat which conveyed the officials from Canton.

RAILWAY IN ANHUI.

AN UNRECOGNISED COMPANY.

[By courtesy of the "Sheung Po".]

Peking, 3rd June.

The Po Lum Co. has undertaken to build railways throughout the Province of Anhui and has engaged engineers to survey the route.

It is reported that Viceroy Tuan Fang does not recognise the company.

THE TUNGKUANSAN CONCESSION.

CONFERENCE WITH SIR JOHN KAYE.

[By courtesy of the "Sheung Po".]

Peking, 3rd June.

The representatives of Anhui Province had a long conference with Sir John Lister Kaye and in the discussion which ensued gained their points.

The Anhui representatives have presented a petition to the Waiwupu in which very forceful terms were employed.

The Waiwupu has not yet replied to the memorial.

Both the Waiwupu and Sir John Kaye were rather embarrassed over this new development, and the Waiwupu has decided to apply to Viceroy Tuan Fang and the Governor of Anhui to use their best endeavours to break up the union which has been formed by the people, so that the matter may be settled amicably.

SHIPPING.

HSU SHIH-CHANG'S INTEREST.

[By courtesy of the "Sheung Po".]

Peking, 3rd June.

H.S. Hsu Shih-chang, president of the Ministry of Posts and Communications, takes a keen interest in all that concerns shipping matters.

CHINA'S SOVEREIGN RIGHTS.

A LIST OF LOSSES.

[By courtesy of the "Sheung Po".]

Peking, 3rd June.

The Waiwupu has submitted to the Prince Regent a list of the privileges and sovereign rights lost by China within recent years.

LUZON SUGAR CO.

STRIKE OF EMPLOYEES.

The Manila Times of 29th ult. says:—The strike of the employees of the Luzon Sugar Refinery, at Malabon, is at an end. A compromise was reached yesterday between the workmen and the management, and the men all returned to work this morning.

On April 15th this guild of the Union Obrera made formal demand on the company for an increase to three pesos per day for all foremen and operators, with work hours from 6 to 8 and 8.30 to 12 in the morning, and from 1 to 6 in the afternoon. The company refused to respond to the demands of the Union, and a strike was ordered, the entire force walking out on May 12.

Yesterday Ernesto del Rosario, vice-president of the Union, called at the factory at Malabon, and after a conference with the general manager, John Galbreath, a compromise was effected. The company acceded to the demands of the workmen for shorter hours, but agreed to increase the pay of the men by only one peso per day instead of three, as demanded.

The refinery was again opened for business this morning, and all the strikers returned to work.

ANOTHER PEAK ROBBERY.

VALUABLES STOLEN FROM GOUGH HILL ROAD.

Again we have to report another robbery which was perpetrated at the Peak at an early hour this morning. When it was done is known best to those who are concerned in what we may call a transaction.

Although the police, as usual, are very reticent in regard to this matter, our representatives managed to gain a few facts. Whether they will "pan out" is doubtful.

The story that we have heard, in fact the story that we have been told by certain authorities, is something like this: At about nine o'clock this morning somebody (whose name and personality, to say nothing of the fingerprints) managed to rob a house at 5105, Gough Hill Road, the Peak.

As we said before, the man, or the police suggests, there were two or three in the game, climbed into the bedroom. For Hongkong they got a pretty fair swag. According to the official information the gentleman, who emulated Raftles, took a gold repeating watch, valued at \$80, a sovereign, a gold Chinese and a Japanese coin—total \$140.

The police are on the track of the robbers.

CONTRACTORS GRIEVANCES.

THE NAVAL YARD WALL DISPUTE ENDED.

The Puisse Judge (Mr. H. J. Compertz) rendered his decision in the Supreme Court, to-day, in the action brought by Li Wo Shing, of the Wo Shing firm, of 11, High Street, West Point, against Lai Fook, representing the Yee Sang Company, 194, Third Street, to recover the sum of \$123.49, alleged to be for work done and materials supplied. The defendant, it will be recalled, admitted owing part of the claim—\$131—which was paid into Court.

His Honour entered judgment for the plaintiff, with costs.

In this matter, the reader will remember, the plaintiff was a sub-contractor and was employed by the defendant. The contract made between them was that plaintiff should attend to the wall enclosing the Naval Yard Extension, along Murray Road, from the V. R. C. end almost up to Queen's Road. It was granite and coping stone work. It was a verbal agreement made between the parties, but subsequently a memorandum was made showing what the price of the work was to be. Some time afterwards the plaintiff was requested by the defendant to do some additional work to the wall. The defendant agreed to the higher prices charged and the work was completed, but he in the end refused to pay plaintiff the full amount for the work done.

For the defence it was understood that in the memorandum the price of the work had been stipulated, and according to that document \$132 was all that was due and owing.

In giving his decision, his Honour said that it seemed to him that if the plaintiff took the risk of not consulting the builder, and not the building work, in accordance with the plans he could not get his claim. As regarded the second part of his claim—the extra charge—he thought he must get judgment for the amount paid into Court, \$131, and the balance of the extra costs of labour during the Chinese New Year festival.

Judgment was accordingly entered for the plaintiff for \$130.19 and costs.

HONGKONG CAPITAL IN THE PHILIPPINES.

A MINING VENTURE.

Baguio, 28th May.

A Hongkong syndicate has purchased a tenth interest in the Headwaters Mining Company (Inc.) from Nels Peterson, for the sum of \$200,000. Governor Whitmarsh represented the Hongkong capitalists in closing the deal. This is one of the most important mining deals put through here this year and is an indication of the interest being taken by capitalists of Hongkong in the Philippine mining industry.

The Headwaters Mining Company (Inc.) was recently organized with a capital stock of \$500,000 of which \$250,000 is paid up. This company controlled a large group of mines in the most desirable section of the Baguio district and the promise for future development in the area is very bright. The president of the company is Mr. H. P. Whitmarsh, the first governor, and a pioneer merchant of the summer capital. He has always taken a lively interest in promotion work affecting the mining industry here and it is largely to his personal efforts that much capital has been attracted.

Nels Peterson, who is a large shareholder in the company and who sold the tenth interest in the Headwaters, is one of the first prospectors who invaded the Benquet country. He has been active in development work and his mill has made him a snug fortune. He is now worth several hundred thousand dollars, the result of his activity in the district and his unbounded faith in the future of mining there.

From a recent report of the operations of the Headwaters Company the following excerpt is taken:—

"No less than four distinct reefs are now being opened up, with a promising outlook as regards values. Reef No. 1 has been stripped of the 'overburden' for some 200 feet and shows a splendid body of ore—about 100 feet in width. Tunnel No. 2 has advanced 30 feet, the face showing 4 feet of loose quartz carrying free gold. No. 3 Tunnel has been extended 15 feet and has solid quartz in the face 3 feet in width. This also pans free gold. No. 4 is a new reef, running parallel with the 'Big Lead' which was exposed by a landslide during the recent storm. This discovery is an ore-body composed of quartz and manganese between well defined walls and five feet in width. A general assay of the face gives the value to be \$20.80 gold, per ton."

—*Cable News-American.*

COUNT Yanagisawa, a well-known authority on the science of statistics, has been appointed to represent the Japanese Government at an International Conference on Statistics to be held in Paris from 5th to 12th next. The Count will travel to Europe by the Siberian Railway.

THE TEMPLE COLLAPSE.

PATIENTS RECOVERING GRADUALLY.

The two women, Ip Chuen (45), a married woman residing at 3, Queen's Road East, and Lo Ho (22), a married woman, of 5, Tai Yuen Street, who were injured in the collapse in the Tai Wong Temple yesterday, are progressing favourably. Inquiries made at the Government Civil Hospital to-day, elicited the information that the patients were doing well, and there is no fear entertained regarding their recovery. Ip Chuen, we are given to understand, is recovering rapidly, but this cannot be said of Lo Ho, who is in a very weak condition. It will be several days before the pair can leave the institution.

TO BE EXTRADITED.

PRISONER FROM PENANG COMMITTED TO GAOL.

The other day we mentioned in these columns that a man named Lim Chee Sang, alias J. W. Dodson, had been arrested in Hongkong, by Detective Inspector O'Sullivan, on a warrant charging him with the larceny of \$70,000, the property of the Hongkong and Shanghai Banking Corporation (Penang agency).

This morning, in the Police Court, the defendant was put upon his trial. Kirke, of the Penang Police Force, identified the accused as the man whom he had known for years.

The magistrate (Mr. J. H. Kemp), after hearing evidence, committed the man to the Victoria Gaol pending the order of the Governor for his extradition.

COMMERCIAL.

WEEKLY SHARE REPORT.

Reviewing the share business for the week Messrs. E. S. Kadoorie & Co. write this afternoon:—

Most Stocks have been in good demand during the week under review and a fair business has resulted.

Banks.—Hongkong and Shanghai Banks have improved to \$85, at which rate buyers predominate. Small sales at \$90 have also been effected. The London price is 101.

Marine Insurances.—Cantons are weaker and have sellers at \$105. North Chinas continue in request at \$104. Unions are steady and without business to report at \$84. Yangtzes are wanted at \$11.25.

Fire Insurances.—China Fires are still in demand at \$110 without inducing sellers. Hongkong Fires are steady at \$145.

Shipping.—There are sellers of China and Manilas at \$11, and Douglases at \$36. Hongkong, Canton and Macao Steamboats continue strong and are now wanted at \$32. Indo-Chinas have improved to \$26, but holders are waiting for a higher price. Shell Transports have risen to 61, with buyers. Star Ferries, old, are quoted at \$26 ex the dividend of \$1 per share paid on the 2nd inst., and the new shares at \$14 ex the dividend of 50 cents per share. There are probable sellers at these rates.

Refineries.—China Sugars have eased down to \$142. Lurons are neglected at \$15. Perak Sugars have again strengthened and buyers in the North have offered \$15.25.

Mining.—Chinese Engineering can be sold, at the advanced rate of \$18.10.

Docks, Wharves and Godowns.—Kowloon Wharfs have been dealt in to a fair extent at \$59, and at the close further buyers prevail at the rate. Whampoa Docks have been sold during the early part of the week at \$68 and \$67, but they are now easier and obtainable at the latter rate. Shanhai Docks have been dealt in at \$18.5. Hongkong Wharfs have weakened to \$18.10 but there are buyers.

Lands, Hotels and Buildings.—Anglo-French Lands are again in favour at \$11.10, and Central Stores at \$19. Hongkong Lands have hardened to \$110, at which prices they are wanted, but none can be had unless at a higher rate. Humphreys Estates, with an unsatisfied demand, have risen to \$93 but shares are scarce. Hongkong Hotels are quiet at \$71 for the old shares ex new issue. The new shares have been placed at \$40. West Points have been sold at the improved rate of \$46.

Cotton Mills.—Hongkong Cottons have changed hands at \$83. Ewos have declined to \$120. In other Northern Mills, we take the following changes from latest mail advices to hand:—Internationals \$18.86, Lau Kong Mows \$18.105 and Soy Chees \$18.400.

Miscellaneous.—China Borneos have strengthened to \$133, with buyers. China Light and Powers have weakened to \$7 after sales at \$72. China Providents are firm, and inquired for at \$63. Dairy Farms have changed hands at \$164. Green Island Cements have been the medium of a large business, sales having taken place at \$8.80 and \$8.90 and can now be placed at \$9. There are buyers of Hongkong Electric at \$19. Peak Tramways are wanted at \$13 for the old shares ex the dividend of 80 cents per share paid on 29th inst., and \$3 for the new shares ex the dividend of 8 cents per share. Union Waterworks have inquiries at \$103. Watsons can probably be placed at \$100. Dividend of 50 cents per share paid on the 29th inst. In the North, Langkats have changed hands at \$11.140, while Sumatras have risen to \$18.18.

Exchange.—The Bank's selling rate on London is 1/9 on demand. The T/T rate on Shanghai is 74.

Dividends Payable.—Langkats, second interim dividend of \$12.12 per share payable in Shanghai on the 15th inst.

Forward Settlements.—The following dates have been fixed by the Stockbrokers' Association of Hongkong for Forward Settlements:—

June Settlement 29th June.

July " 30th July.

August " 30th August.

September " 29th September.

October " 29th October.

November " 29th November.

OPIUM AND ITS CRITICS.

A COMMISSIONER'S AMAZING THEORY.

Having regard to the extreme moderation of the views expressed as a member of the Straits Opium Commission, we confess to being little surprised at the tone of Bishop Oldham's recent discourse at an anti-opium meeting in Kuala Lumpur, writes the Straits Times. Although he committed himself to the amazing theory that there is no such thing as moderation in the use of the drug, the Bishop wound up the note supplementing the general report of the Straits Commissioners with the remark that "haste and suddenness now are to be deprecated quite as much as lethargy and inaction. But in spite of all that the report contained to show that there was no gigantic social evil traceable to the use of opium in the Straits Settlements or F.M.S. there is a broad suggestion in the Kuala Lumpur speech that many people underestimate the facts about the traffic because they have an interest, through the public revenues, in the profits derived from it. Is that quite fair? For our own part we have met a great many people and have talked this matter over with them, and we find that the financial considerations weigh much less than the social and moral. What troubles the minds of the majority of people is the effect likely to be produced by depriving the Chinese of a solace to which they have been accustomed for generations. One finds in every community, practically without exception, a certain proportion of men who insist upon having some special form of indulgence. Among Europeans it is generally alcohol, because they prefer a stimulant; in Asia it is generally opium, because they prefer a sedative. We do not doubt that by

A SLOW PROCESS OF EDUCATION this craving for one form of indulgence or the other may be ultimately eradicated. But what is proposed by the anti-opiumists is that the Asiatics should be forcibly deprived of their own form of indulgence, which, it is assumed, will be replaced by no worse. Other men may be quite as sincere in their desire to see an evil redressed, but if they are persuaded that the suppression of opium will mean the popularisation of morphine, or cocaine, or alcohol, are they not entitled to consider whether the change may not be from a comparative to a positive evil? If the probable effect of converting a thief to honest ways were to make him a murderer, would anyone claim that conversion as a noble and salutary occupation? With all deference to Bishop Oldham we say that there are thousands of Chinese who take an opium pipe when they feel specially tired, worried, or, as we should say, out of sorts. For a few hours it gives them absolute peace, and they trouble no one. A good many Englishmen in like circumstances fly to liquor, and they may pass through a stage of violent madness before they reach a condition of oblivion which is more horrible in its external aspects, and more disastrous in its after consequences than that produced by opium.

TOBACCO SMOKING is almost universal, especially among ministers of religion. They cherish a pipe because it is the mildest way in which the universal craving for some form of indulgence can be expressed. Yet we have seen men's nerves broken, their digestions ruined, their eyesight destroyed by the excessive use of the weed which has had more than one episcopal blessing. We have heard, too, terms of denunciation applied to tobacco almost identical with those applied to opium. Would it be just to place the millions who smoke in moderation under the necessity of paying exorbitantly for their pleasure because there are a few cases of stupid, uncontrolled excess? If the answer is affirmative why should cheap food be the greatest desideratum of a community which numbers many? In all these matters it seems to us that the type Bishop Oldham represents strives too much for the reform of a few, and cares too little for the comfort of the many.

THERE IS ANOTHER POINT which appears to us to deserve some consideration. Unless we are to assume that the temperate and unwholesome use of liquor, in itself a sin neither the State nor the Church has a right to interfere. The special offence of excess, until it reaches the degree of intemperance which is clearly harmful to others than the debauchees themselves, is not a matter for the State but for the moral teachers. Yet the latter clamour continuously for penal laws or prohibition. They speak and act as if they had neither faith themselves nor in the views they teach—as if all moral reform must emanate from a big cudgel with a brawny policeman at one end of it. Force, it used to be said, is no remedy, but, really, in these latter days it seems to be much more fervently hounded than any form of sweet reasonableness or moral suasion with which we are familiar. If Bishop Oldham could show us one opium sinner brought to repentance for each smoking addict whom the anti-opium friends have made upon governments we should have greater pleasure in reading his addresses. At present he rather gives the impression of a person who having entered upon a great work decides that it will be pleasant to cast the drudgery of it on to somebody else. We do not in the least object to "educate, educate, educate"—it is an excellent phrase, but whose business is it to educate and who should be the pupils? Our impression is that where moral conduct is concerned the paid moral teachers should take the work in hand, and that the sinners should be their pupils. Let them give the policeman and his assistants a lesson in confidence and in the use of the word "opium" is a folly and a crime, and caused the revenue from opium to disappear, governments, either colonial or imperial, will be foremost in offering congratulations. It is

THE DRAGONING ATTITUDE that we resent—the bullying and badgering of governments into the making of laws which restrain personal freedom, instead of steady patient work upon the minds and hearts of individuals so as to raise them to an appreciation of their own duty and their own highest interests. We rather incline to think that the type of Chinaman who frequents these parts can be led more easily than driven. If the Government says "you shall not have opium at a fair price," they will set their quick wits to work on schemes of smuggling; but if they can be convinced that the use of the drug is bad, they will leave it alone whatever the price may be. Here, then, there should be a splendid field for moral suasion.

To-day's Advertisements.

EASTERN AND AUSTRALIAN STEAMSHIP COMPANY, LIMITED.

FOR SYDNEY AND MELBOURNE.

(Calling at Timor, Port Darwin and Queensland Ports, and taking through Cargo to Adelaide, New Zealand, Tasmania, &c.)

Taking Cargo on through Bills of Lading to Rangoon, Madras and Mauritius.

THE Steamship

"CATHERINE APCAR"

Captain G. F. Hudson, will be despatched for the above Ports, on THURSDAY, the 10th instant, at Noon.

For Freight or Passage, apply to DAVID SASSOON & Co., LIMITED, Agents.

Hongkong, 4th June, 1909. [466]

THE O. S. K. NEW SERVICE.

FORTHCOMING INAUGURATION.

On June 2nd the Tacoma-maru, the first vessel on the new service of the Osaka Shosen Kaisha between Hongkong and Tacoma, left Kobe for Hongkong to inaugurate the service. On the completion of the whole fleet the service will be a fortnightly one. The general route will be from Hongkong, via Shanghai, Moji, Kobe, and Yokohama, occasionally calling at Yokkachi and Shimidzu, to Tacoma, Wash., where the service is to connect under the sole traffic arrangement with the Chicago, Milwaukee & St. Paul Railway Company, of Chicago, Ill., who are now extending their new line to the Puget Sound.

The service will comprise six new steamers, augmenting the company's present fleet of 127 vessels. They will be each of 12,000 tons displacement (3,833 net), and of a maximum speed of 15 knots per hour. After the launch of the Tacoma-maru the other five vessels will follow at short intervals. The latest appliances have been adopted in the general construction of the steamers as well as on the gear and accommodation for supply cargo, silk, and other valuable Extensive docks, warehouses, and other terminal facilities, too, are nearing completion at Tacoma, which, it is claimed, will practically have no rival on the Pacific Coast. The company claims that their arrangements will amply ensure an absence of possible damage to cargo as well as its rapid handling and transportation.

The Pacific Extension of the connecting railway, the Chicago, Milwaukee & St. Paul Railway, is expected to be completed by June, making an aggregate total mileage in operation of 8,430, and this extension will bring forth at once an improved fast freight service between Tacoma and Chicago, the Eastern States and other American and Canadian points. This line, it may be noted, is the southernmost road running from Puget Sound, and also is the only direct service to Chicago under one through control. It will be the shortest route to the Atlantic seaboard—2,177 miles to Chicago and 3,064 miles to New York—and with the track well laid out, easy grade and curves throughout and the lowest altitude in the Cascades and Rockies combined with the new steamship service across the Pacific it is hoped that the new service will be well patronised.

For the handling of local cargo, such as destined for or arriving from various ports in the Sound, British Columbia, and other Pacific Coast points, the necessary arrangements have been concluded with the local steamships and railroads, and every important quarter is now equipped with efficient agencies.

The following particulars of the new vessels are of interest:—The builders are the Kawasaki Shipbuilding Co., Ltd., of Kobe. The length of the boats, which will be twin-screw, will be 410 feet, greatest width 51 ft. 3 ins., and depth 31 ft. 6 ins. They will have a displacement of 12,000 tons, with a gross register tonnage of 6,178 and a net register of 3,833 tons. They are classed 100 A1 at Lloyd's. Their speed will be 15 knots. The vessels will be electric lighted and refrigerated. They will be loaded under the Japanese Government's and Lloyd's three-deck rule, with forecastle, long bridge deck and poop, steel deck house on the bridge and boat decks. There will be two masts, fore and aft rig. A cellular double bottom will run throughout with a deep tank at the engine room, while there will be seven watertight and two screen bulkheads, wide-spaced tubular pillars, steel upper and main decks, and steel lower deck in the No. 1 hold. There will be two sets of triple expansion engines, and the load draft of the vessels will be 25 ft. 8 ins. Fasten accommodation will be provided for 200 steerage berths, while a limited number can be accommodated in the cabin. Silk, treasure, and parcel rooms will also be installed. An extra cargo derrick capable of lifting 30 tons will be fitted on the vessels, besides the ordinary cranes.—*Japan Chronicle.*

VETARZO BRAIN AND
NERVE FOOD.

This remarkable compound, the result of the latest developments and achievements of modern chemistry, pharmacology, and therapeutics, is without equal in all cases of defective nerve power, whether induced by worry, over-work, indigestion, depression, or other influences incidental to the wear and tear and haste of modern life. It is a powerful tonic, strengthening the system, and expelling the virus of disease, wherever and in whatever form met with: removing all blotches, pimples, scurf, scurvy, acridulous and glandular swellings, discolorations, roughness and unsightly patches, etc. Its effects are almost magical in the treatment of gout, rheumatism, sciatica, lumbago, pains and swellings of the joints, discharges, secondary symptoms, eczema, lepra, psoriasis, bad legs, bad breasts, abscesses, ulcers, sores, galls or Dermatitis, etc. It improves the general health, and quickly removes long-standing bronchitis, asthma, and hacking, straining, spasmodic cough; too often the precursor of consumption.

CAUTION.—Ask for "VETARZO Brain and Nerve Food," or "VETARZO Blood Medicine," whichever is required, and see that you get them, as unprincipled vendors often try to palm off inferior preparations
